

LEAPS INTO LEAD—Al Gundstrom pilots his SK boat into a leaping lead over unidentified boat in recent racing action at Long Beach Marine Stadium. Dozens of area boats are presently preparing for the 4th annual Regatta

of Champions Saturday and Sunday at the stadium. Co-sponsor J. C. Agopian has offered a special \$500 prize for any boat cracking the 150 m.p.h. barrier in the drag races.

Stamp Collectors To Hold Auction

The summer season is well under way at the Torrance Stamp Club. At its next meeting an auction will be featured.

Due to the increased membership in the last few months, these auctions are turning out to be something to look forward to; and friendly competition makes for an exciting evening," Walter Taylor, member, said.

Redskins Open Camp

The Washington Redskins this week to set up camp generating optimism from at Occidental College in equipment manager Kelly readiness for the 17th annual charity game against Marshall, whoop into town the Los Angeles Rams.

This traditional opener of the Southland pro grid season is billed for August 11 at the Memorial Coliseum. Head coach Bill McPeak, in his second year with the Redskins, arrives Monday with his assistants Abe Gibron, Ted Marchbroda, Ray Willsey and Tim Temerario. Willsey, defensive coach, is the lone newcomer but no stranger to the Southland where he played high school and junior college football at Santa Ana before star-

ring at U. of California, Berkeley, as a quarterback and defensive halfback. He comes to Washington from the St. Louis Cardinals.

WHAT WILL HER LIFE BE LIKE IN THE ALL-ELECTRIC FUTURE?

Before her 10th birthday, she'll probably push a button and see a complete meal arrive automatically at the table. By the time she's married, an electromagnetic housekeeper will awaken her, prepare the toast and coffee, open the garage door and warm up the car. These new ideas in modern living depend on electricity.

The electric industry continues to lead in the research to find new ways to produce and use electricity. And logically so. Electricity is our business.

We have already produced it a number of new and different ways, involving the use of fuel cells, nuclear energy, thermionic conversion and magnetohydrodynamics. Whatever the source, electrical energy is limitless, and Southern California Edison will continue to bring you an abundant, dependable supply at the lowest possible rates.
